Ms. Catrice Williams, Secretary
Department of Telecommunications and Cable
1000 Washington Street, Suite 820
Boston, MA 02118

Dear Ms. Williams:

Teleport Communications America, LLC DTC # 5

On behalf of AT&T Corp., ("AT&T"), enclosed are revisions to its **Teleport** tariff, DTC Mass. No. 5 for effect on July 31, 2014. The tariff revisions consist of the following:

DTC No. 5

Access Services

Price List
Price List

2nd Revised Sheet 11
2nd Revised Sheet 13

AT&T submits the enclosed tariff revision to intrastate access charges to match interstate access charges under step 3 as ordered by the Federal Communications Commission (FCC) in its November 18, 2011 Report and Order and Further Notice of Proposed Rulemaking in WC Dockets No. 10-90, etc.

Please stamp the "DUPLICATE" copy of the transmittal letter and return it in the enclosed envelope.

Please contact me on 617-574-3198, with any questions on this filing.

Sincerely yours,

Albert F. Stone

cc: Director of Telecommunications

4. SWITCHED ACCESS SERVICES

4.2 Call Completion Service

Non-recurring and usage rates apply for each Call Completion Service furnished by the Company. Non-recurring charges are the one time charges that apply for a specific work activity, (e.g., new installations or changes to existing installations). Usage rates apply only when a specific rate element is used. They apply on a per Call Completion Service access minute and are accumulated over a monthly period.

Rate Categories

The following diagram depicts a generic view of the components of Call Completion Service and the manner in which the components are combined to provide a complete service.

End Office

The End Office rate category provides for the local end office switching and end user termination functions necessary to complete the transmission of Call Completion Services to and from the end users served by the Company's end offices. The End Office rate category consists of the Call Completion rate element.

A. Call Completion Rate Category

The Call Completion rate element provides for the use of end office switching equipment, terminations for the end user lines terminating in the local end office, and for the termination of calls at a Company Intercept operator or recording. Calls will be rated based on time-of-day where technically feasible. Where the technical capability does not exist, calls will be rated at day rates.

1. Call Completion

Svc. Category	Rate Element	Rate (\$)
Call Completion	Originating - Per Access Minute	.003990
	Terminating - Per Access Minute	.003112
VoIP-PSTN - Call Completion	Originating only-Per Access Minute	.002406
VoIP-PSTN - Shared End Office trunk port	Originating only-Per Access MOU	.001688

4. SWITCHED ACCESS SERVICES

4.2 Call Completion Service (Cont'd)

Local Transport

Local transport provides the transmission facilities between the customer premises or collocated interconnection location and the Company's end-office switch(es) where the customer's traffic is switched to originate or terminate customer's communications.

Local transport is comprised of a Local Transport Termination rate and a Local Transport Facility rate. The Local Transport Termination rate is billed on a per access minute basis and the Local Transport Facility is billed on a per mile per access minute basis. For purposes of determining the mileage, mileage shall be measured as airline mileage between the serving wire center of the customer's premises and the end office or directly to the access tandem using the V & H coordinates method set forth in NATIONAL EXCHANGE CARRIER ASSOCIATION IN. TARIFF FCC NO. 4. Fractions of a mile are rounded up to the next whole mile before rates are applied.

A. Tandem Transport Termination

Svc. Category	Rate Element	Rate (\$)
Tandem Transport Termination	Per Access Minute	.000000
VoIP-PSTN - Originating Only Tandem Transport Termination	Per Access Minute	.000000
Tandem Switching	Originating - Per Access Minute Terminating - Per Access Minute	.001538 .001574
VoIP-PSTN - Originating Only Tandem Switching	Per Access Minute	.001574
